### BASEBALL

Since the game here on Dominion Day the Vulcan team has played three games, two league fixtures and one exhibition game, and all away from home. Vulcan has been unfortunate this season in the matter of home games, rain preventing some four or five, but then we have had the rain. There was a tournament at Nanton on July 4th, four teams of the league participating. Stavelly played Claresholm and won. Vulcan played Nanton. It was the first game between these teams this year, though they had made a start of an inning or two in one other. There was some anxious speculation as to result, and this was sustained even into the early portion of the game, but after that it was a walk-away, with a finish in favor of Vulcan, the score being fourteen to four. Siler was in the box for Vulcan, and continued his even and effective performances. The play-off in the tournament was between Stavelly and Vulcan, and as the result could have no bearing on the league standing, the regular local pitcher did not go in, the hurling being done by two or three of the other boys, and it was comparatively easy for Stavelly to win by a score of nine to five. But the Vulcan team is taking care of their league games as best they can, and with gratifying success, for they repeated on Wednesday against Nanton, the score this time being fourteen to eight. In the early stages of this game Nanton again made a good showing and were at one time four or five runs in the lead, but when Siler tightened up and the Vulcan boys got to batting there was nothing to it. Vulcan plays Claresholm on Wednesday at the Claresholm tournament.

The Vulcan Cubs have had no league games during the week, but they have twice played Carmangay in exhibition games. The first of these was in Vulcan on Friday night, which ended in a tie, the score being eleven-eleven. The next day, Saturday, the same teams played at Carmangay, and it took an extra inning to decide, Carmangay winning by a score of ten to nine. These games provide lots of fun, but the generally expressed opinion is that there is a looseness and carelessness about these games that do tend to produce the best kind of ball, and certainly most of our boys are capable of much better performances than we sometimes see.

### FOOTBALL

Vulcan was neutral ground for a game of football on Wednesday evening last between the Champion and High River teams. Champion at full strength with the assistance of a couple of local men against the High River team of the Calgary city league produced a game that was a satisfaction and delight to the large attendance of spectators, and, by the way, the interest in football continues to increase and manifest itself. The game was fairly fast and decidedly even, and the general opinion is that High River was lucky to win, the score being one to nil. It was the best exhibition on local grounds this season, with the exception of the holiday game between Calgary Posties and Vulcan. The game was handled without a hitch by Mayor Butchart, who was also chief of the committee which arranged the match and gave attention to the entertainment and extended the courtesies which Vulcan is pleased to give to football teams of such splendid fellows.

Ensign now has a football team, and Vulcan was pleased to entertain them for the first time on Wednesday evening. The game was an interesting event, and the play fairly even, the score being one to nil. The showing of the visitors, a new team, was a pleasing surprise, and their organization and success is welcomed as promoting the game in this district. Vulcan will play a return game at Ensign at an early date.

There was a game at Champion on Wednesday night that was of considerable local interest, in that Messrs. Jose and Stewart participated, Mayor Butchart officiated, and it introduced a new team and new players to the territory. It was between Champion and Carmangay, and the latter was composed to some extent of members of the Lethbridge Vets. It was a good game and a number from here were down to see it.

Try our Class ads. They get good results.

Born, on July 2, 1924, to Mr. and Mrs. F. W. Levens, of Vulcan, a daughter.

"In days gone by the young men came around at midnight to serenade young women." "That custom is impossible now," commented Miss Cayenne. "A popular girl is very seldom at home at that hour,"—Winnipeg D.C. Evening Star.

### THE WINNERS

Successful Competitors at Vulcan on  
July First

Now that there has been more than a week to talk it over, the Dominion Day celebration at Vulcan is declared to be a success greater than at first estimated. Everything was one hundred per cent, so says almost everybody, and interest is maintained at high by the discussion of the events and the ideas and plans presented for next year.

Details of events that were not published in The Advocate last week are contained in the list of contests and the names of winners which follow:

Boys' race, 7 to 10 years—1 Bob Marshall, 2 Miles Parker, 3 Norman McKay.

Boys' race, 10 to 13 years, 1 Leonard Northcott, 2 Harold Hemingway, 3 Steve Parker.

Boys' race, 13 to 16 years—1 Mack McKenzie, 2 Steve Parker, 3 Wayne Ransom.

Boys' race, 16 to 20 years, 1 Wayne Ransom, 2 Harold Hemingway, 3 Blaine Parker.

Girls' race, 7 to 10 years—1 Lorna Ferguson, 2 Irma Jurney, 3 Helen Market.

Girls' race, 10 to 13 years—1 Isabelle Flood, 2 Alta Market, 3 Nellie Wood.

Girls' race, 13 to 16 years—1 Dorothy Hart, 2 Evelyn Meyer, 3 Olive Linley.

Men's race, 100 yards—1 Cecil Melville, 2 Harold Lind, 3 Albert Lind.

Men's race, 220 yards—1 Cecil Melville, 2 J. E. Thompson, 3 Albert Lind.

Men's race, 50 yards—1 Dale Campbell, 2 Oscar Hagen, 3 Albert Siler.

Boys' High Jump—1 Wayne Ransom, 2 Harold Lind, 3 Albert Lind.

Boys' Sack Race—1 Charles Northcott, 2 Howard Smith, 3 Harold Hemingway.

Three-legged race—1 Howard Smith and Jack Massey.

Free-for-all race—1 Mizzen, owned by Neil Campbell, ridden by Neil Campbell; 2 Forget Me Not, owned by A. Bollinger, ridden by J. Gunther; 3 Lady Rosebud, owned by J. Marshall, ridden by Buster Johnston.

Cow pony race—1 Beauty, owned by Lou Douglass, ridden by Lou Douglass; 2 Trixie, owned by Neil Campbell, ridden by Neil Campbell.

Cow pony race—1 Hector, owned by V. Adair, ridden by Fred Endsley; 2 Grey Dick owned by Swanson Bros., ridden by Gus Swanson.

Relay race—1 Mizzen and Dizzy, ridden by Neil Campbell; 2 Hector and Grey Dick, ridden by Gus Swanson; 3 Slipalong and Beauty, ridden by Lou Douglass.

Ladies' race—1 Redwing, owned by Swanson Bros., ridden by Mrs. Fisher; 2 Cuning, owned by Neil Campbell, ridden by Miss Bertha Campbell; 3 Lady Rosebud, owned by J. Marshall, ridden by Miss Merle McKay.

Bucking contest—Neil Campbell and W. Conklin were even and split first and second money, and M. Conklin was third.

Best Bucking horse—Haga, owned by Harry Christianson.

But we notice that even the girls who are the surest that bobbed hair is here to stay, take home the leavings and hide them away in the bureau against the day when they may want to switch.—Frederickton Gleaner.

Call up 82 or 42 if  
you require further.

### CELEBRATION COMMENT

A foul ball struck a baby on the head, and one of the players suffered a crack on the nose.

Roy Jinks and Ben Orton, the boys from the banks, were the busiest of the bunch. They were on the ticket sales.

The display of flags on Dominion day was splendid, perhaps better than ever before but there were a few that were not up.

One man and one horse were killed at the Macleod celebration. Vulcan was more fortunate, suffering the loss of but one horse.

The refreshment stands did a whale of a trade, selling completely out, and people were actually drinking water before it was all over.

In the bucking contest the riders had the best of the bronks, only one man biting the dust, and he happened to be the last man out.

Champion Chronicle—Champion divided its patronage between Vulcan and Macleod on July 1st, the former getting the major portion.

The best of the horse races was that with the lady riders. The four starters got away even, raced the entire distance and finished close.

There were so many entries in the cow pony race that the committee added money to the purse and made two races seven starting in each race.

The number of automobiles was the greatest assembled at Vulcan, and they were an interesting sight, spread out in row after row over the several acres.

It was so hot on Dominion Day at the park that if the band had dared to play "It ain't goin' to rain no more," someone would have dropped dead. As it was, several fainted.

Lethbridge Herald—The Dominion day celebration at Vulcan yesterday beat all records and will be remembered by all who were present until next year's celebration comes around.

Out of the races came a matched race of a quarter of a mile between horses owned and ridden by Jim Dew and Neil Campbell, on a bet of \$50, and the latter won by a hair.

Nanton News—Nanton was almost deserted on Dominion Day. Business houses were all closed, and a considerable number went from here to Macleod, but more followed the baseball team to Vulcan.

When the hundreds and hundreds of visitors were on the way to the park they were attracted by our splendid rink, and the trees and general appearance of the town prompted complimentary comment.

It has been suggested that the baseball bleachers along the first base line be extended to the corral. And some have said that the score board might be changed to a better location and used to better serve the fans.

It was a good natured crowd that day, despite the intense heat, and the special cops had little to do but tell 'em occasionally. Though one committee man lugged a fellow off the lot because he would not mind.

The plan of paying the winners immediately a contest is over is truly popular with the competitors, and Treasurer Flood was right there at the finish of every event with a perfectly good cheque on the Town of Vulcan.

High River Times—It was a big day; the weather was hot and right and all of the events proved very interesting and were closely contested. Good prizes were offered in all the athletics and field events which drew out strong competitors.

Vulcan is always neighborly, and was well represented at the Macleod jubilee, some of our people getting a view of the vast assembly from high up in the air, they having made a flight in an aeroplane. One of these was our A.P.P. man, Constable Davies, who is a former member of the "Mounties."

Perhaps the most pleased group of visitors was the Calgary Posties, members of a football club from the city, who were visiting the "big team" town and the home of Slim Moorehouse for the first time, and they are still telling of the great time they had in Vulcan.

### LOCAL ITEMS

Born, on June 28, 1924, to Mr. and Mrs. George Reath, of Vulcan, a son. We have a girl friend who is having her voice cultivated when she ought to have it harvested.

Customer in Shoe Store—"This shoe pinches my joint." Salesman—"Sorry madame, but all the joints in town are pinched."—American Legion Weekly.

Mr. C. B. Shimp is desirous of learning of the whereabouts of his dog, which has been missing for some time. It is a rat tail Irish water spaniel, with cut on tail and white spot on breast.

Mr. William Sherman sends the following message to The Advocate: "We are pleased to send four dollars to pay up for the paper, and also return the magic pin, which we hope you may be able to use to prod up some other slow pay."

The Vulcan members who attended the Shriners' ceremonial in Calgary this week were Dr. Carson, G. W. Buck, Roy Walker, A. G. Spooner, D. C. Jones, A. G. Dickinson, Dan Beaton and D. H. Galbraith. It was a great event. Shrine visitors from many points in the United States were numerous in Calgary this week, and they had with them bands and patrols.

Mr. Jack Wynn, of the Alberta Barn, has this week received an invitation to attend "old home week" at Watford, commencing August 17th. Jack does not think that he will be able to attend, but his mind goes back to the good old town in Ontario where he rode the gallopers when a boy, and appreciates the fact that the invitation reached him even after he had been so far and so long separated from the old boys.

The council of Vulcan met on Monday night as a court of revision on assessments. There were a number of appeals, but none were allowed. The chief of these was a general appeal by the C.P.R., with special reference to land known as the R. P. Hay quarter. There was a correction in the assessment of this land for school purposes. The railway company was represented by Mr. Shephard, who gave intimation that there would be an appeal made to the court by the company.

Four locals of the U.F.A. and U.F.W.A., Kirkdale, Berrywater, Queens-town and Reid Hill, have amalgamated this year to put over the big annual picnic at Lake McGregor. This picnic is always big, and planned this year to be better than ever. The program is long and the prizes large. There will be horse races and bucking, baseball and athletics, and everything not the least of which is a dance in Milo hall at night. The committee has planned well, and all who attend are assured of a great time.

There is a plan on foot to put on an afternoon of horse races, and perhaps a ball game, at Vulcan in the early part of August. The idea has the approval of horse owners and ball players who have expressed themselves, and there are some others who give it favor. The proposition is but the subject of discussion as yet, but indications are that developments will be such that some definite announcement can be made next week, or before that time. All who are interested in these sports can help by at least promising patronage. What do you say?

It is wonderful—the development of an event. Two years ago Slim Moorehouse drove into Vulcan with a team of thirty horses hauling in eight wagons, a car load of wheat. This week a daily repetition of this feat is certainly the feature event of a great fair at Calgary. Thousands there are who have gone to the city to see this famous big team, and Vulcan can be excused for the pride they have in the success of this attraction. Everybody here was confident, but there was an anxiety until the word was received that "Slim" had made the first trip, turns and all with perfect success, and it was well that the first message of this success should come from Mr. Fred Hilton who, though he lives in Calgary, has been doing business in Vulcan for years, and joins us in the satisfaction of so splendid a success.

High River Times—It was a big day; the weather was hot and right and all of the events proved very interesting and were closely contested. Good prizes were offered in all the athletics and field events which drew out strong competitors.

Vulcan is always neighborly, and was well represented at the Macleod jubilee, some of our people getting a view of the vast assembly from high up in the air, they having made a flight in an aeroplane. One of these was our A.P.P. man, Constable Davies, who is a former member of the "Mounties."

### LOCAL ITEMS

Constable Allen and Mrs. Allen, both former residents of Vulcan, were visiting friends in town this week.

Dr. Barker contemplates a holiday, and patrons are advised to have attention given to dentistry required before the first of August.

Mr. G. C. Collier has returned after a week spent at Sylvan Lake, where Mrs. Collier and family are still holidaying. The trip was made by auto.

Ads in The Advocate have during the past week recovered a lost cushion, located the owners of a found saddle and a lady's shoe. There is still a purse with money and a gold pencil which have not been claimed.

Mr. Dawson is substituting for Mr. McDonald as accountant in the Hamilton branch of the Bank of Commerce. Mr. Rouse is temporarily succeeding Mr. Galliker as accountant at the Commerce branch.

Mr. John Palmer of Revelstoke, is visiting in town. Our friend from the mountain city is an uncle of Messrs. Fred and Bob Simington. They play football in his town, and he was an interested spectator at a game here on Monday night.

The sale of home cooking and sewing and fancy goods, held in town on Saturday, under the auspices of the Redlandview Women's Institute, was a splendid success. More than one hundred dollars was realized. George Eamor, Jr., was the winner in the drawing for a quilt.

Vulcan was represented by Messrs. D. C. Jones and A. J. Ober at a conference of radio men at Calgary this week, the result of which has been the organization of what is to be known as the Amateur Radio Experimenters Association, membership in which is limited to certificated and other wise qualified radio people. Mr. Ober was chairman of the meeting. Dr. Reddingfield, of High River was elected president of the association.

The Advocate has received from Mr. J. George Harper, director of the Lethbridge Conservatory of Music, a list of the Vulcan pupils who were successful in their examinations by the Associated Board of the Royal College and Royal Academy of London, England, and they are: Mr. John Hunter, primary violin; Miss Marion LeBou and Mr. Joseph L. K. Drummond, elementary violin; Mr. C. Kettleton, lower violin; Miss Betty Wright, primary piano; Miss Ruby Graham, lower piano; Miss Beulah Walker, higher piano. All of these pupils have been heard locally in recital, and to them will come general congratulations.

The annual picnic at Alston is always a popular event, and this year will be held on Wednesday, July 16th. Posters are out announcing an attractive program, which will include two ball games, athletic competitions, horse races, bucking, steer riding, and a tug-of-war. Music will be furnished by the Champion band. A busy day, crowded full of fun and entertainment, will be concluded with a dance in the community hall at night. Mr. Wm. Howie is the general manager and an energetic committee has every preparation possible made for a successful and profitable event.

Mr. F. Galliker and Mrs. Galliker left this week for their new home at Plum Coulee, in Manitoba, where Mr. Galliker will become manager of the branch of the Bank of Commerce. Both will be much missed in Vulcan. Mr. Galliker has first of all been keen and attentive to business; was a patron of everything worth while, and gave time and support to sport, playing a good game of golf and tennis, and excelled in curling. He was secretary of the local curling club and was also secretary of the Little Bow Curling association. They have the best wishes of a host of friends.

"Roxie, a famous race horse, dies at Macleod," is the heading which appeared in the paper over an article reporting the sudden death of a race horse at Macleod on July 2nd. Roxie was described as a gallant hero and victor of a thousand races on the Calgary and other tracks. He was 14 years of age and during his 11 years of racing never lost an Indian race. Roxie has been the property for many years of Mansuns, a minor chief of the Blackfeet, and the Calgary paper stated that how he came into the possession of the Indians is a question which Calgary horse men have vainly tried to answer. The Advocate has that answer and it comes from the man who knows. Roxie was owned and raced by Mr. George Burns, of Vulcan, and when Mansuns produced the price in horses and cash to Mr. Burns he became the owner of the runner. Roxie, at Macleod, had just finished a heart breaking race and on being returned to the judges, collapsed in front of the stand and died. The last of a famous and popular horse was witnessed by a number of people from Vulcan, who remembered him when he was the possession of a Vulcan owner, and among these was Mr. A. J. Flood.

Mrs. William Sage, of Galt, Ontario, is visiting in Vulcan, a guest at the home of her son, Mr. A. B. Sage. Miss B. Porter, of Friesland, Michigan, is also the guest of Mr. and Mrs. Sage.

Painters are again at work this week painting the skating and curling rinks, and there is an improvement every day in the appearance of these splendid buildings.

Miss E. M. Yeo is at present on the staff of the local post office, a position which she occupied some three years ago. Miss Yeo has recently returned from Vancouver.

"Not much has been heard of late of the flower show this year, but officials of the horticultural society give assurances that the matter is always in mind.

### PITHY PARAGRAPHS

(From the Kincardine Review)  
Wonderful how many people are going to Wembley at their own expense! Judging by the Klux one would think the Democratic party had laid an egg.

Woman slays her son's fiancée. Can't work off any mother-in-law jokes on her.

Democratic party splits on the Klan—news heading. And it was the Klux of the situation.

How on earth can the Democrats hope to win after antagonizing the Ku Klux Klan and the whole Smith vote?

Sir Geo. E. Foster and Mr. E. C. Drury are having their expenses paid while out making speeches. Unnecessary. They'd be glad to do it for nothing.

The government can easily be beaten in the House if Mr. Forke will follow the precedent he set in the division on the Wembley junketing tour. He intended voting for it but voted against it because the Conservatives as a party were voting against it.

The Toronto Star says Hon. James Murdoch is entitled to much credit for settling the postal strike. He is entitled to some credit for settling it before hell freezes over.

A strike against the government is really rebellion says a contemporary. Under Murdoch's ultimatum the postal strikers had to establish a freeze state.

By returning the money Hon. Jas. Murdoch acknowledged he was wrong but his Liberal and Progressive friends would not believe him. We do not blame them altogether because he really did tell a lot of stories about the transaction that were not true.

### OUR WORST ADVERTISEMENT

The worst advertisement for the business sagacity of Canadians is the record of forest fires. What's the use of begging immigrants to throw in their lot with us if we are such wretched housekeepers as to turn five million acres of timberland into charcoal and firewood as we did during the summer of 1923? Every immigrant on the farm is a prodigious user of forest materials. In fact three fourths of the timber cut in America is taken for farm purposes. If we outlaw the forest we outlaw the farm, a procedure that has taken place already in scores of Canadian districts. Seventy per cent of the farmers of Quebec get a substantial part of their livelihood from work in the woods. The public is absolute arbiter of the forest. Whether we shall sweep down hill to bankruptcy or make the forest redeem our war debt and put us on the deliberate decision of the thousands of Canadians who, for work or play, enter the woods and leave a path of red flame behind them. Fire is the one abomination of the woods. It is the killer of industry, the exiler of workmen. Its ravages make the devastations of axemen seem paltry. It lays low ten trees to the axeman's one. It destroys not alone the tree but the soil and postpones for half a century the ability of an area to grow more trees of the kind we want.

Our public leaders are talking of population these days from the single point of view of vacant farm lands. The population problem does not end there. Eighty per cent of our habitable area in Canada is non agricultural. If forest industries do not find a living there, that eighty per cent remains a No-Man's-Land forever. No other lure exists but the lure of standing timber. Furthermore, the farmer's working plant is derived from the forest and his production costs rise with lumber costs and lumber costs always carry an unseen percentage for forest fires. The late Sir Edmund Walker said shortly before his death that the greatest menace to the business future of Canada was the prevalence of forest fires and Sir Clifford Sifton has since declared that if the present rate of forest destruction continues we cannot avoid a heavy loss of population along with the industries and municipalities subsisting upon forest manufactures.

The people of Canada own 85 per cent of the forest lands and at the same time are wiping off the ledger of national assets more than five million acres of forest lands a year. This is a day of rising forest values, when every district that possesses forests will pull to itself new industries, new population, based entirely upon the world scarcity of timber supplies.

A hundred years ago a forest fire was perhaps excusable but in 1924 the humankind's negligence is little short of treason. Hundreds of good fellows who would consider themselves blacklisted forever if they burnt down the Methodist church on Main street have yet to experience the first twinge of conscience when their campfire or cigarette sets ablaze a township of century-old spruce or pine.

### YOU CANNOT CONTROL

The length of your life, but you can control its width and depth.

The contour of your countenance, but you can control its expression.

The other fellow's opportunities, but you can grasp your own.

The weather, but you can control the moral atmosphere which surrounds you.

The big income of your competitor, but you can manage wisely your own modest earnings.

The distance that your head shall be above the ground, but you can control the height of the contents of your head.

The amount of your income entirely but the management of your expenditures is altogether in your own hands.

The other fellow's annoying faults, but you can see to it that you yourself do not develop or harbor provoking propensities.

"Hard times" or "rainy days" but you can bank money now to boost you through both.

Why worry about things you can't control? Get busy controlling the things you can.—Exchange.

H. H. Dewart, one time leader of the Ontario Liberals, died on July 7th.

### A PROGRESSIVE SPLIT

There is a serious split in the Progressive ranks at Ottawa. A section including Miss McPhail and most of the Alberta members object to being docilely led by Messrs Forke and Crerar into the Liberal ranks. They have notified Mr. Forke that they will no longer attend the Progressive caucus. The marvel is that they submitted so tamely so long. Mr. Forke has made it plain enough that his chief concern is to help the government. The Whip of the party is a man who in 1919 asked permission by telegraph to attend the Liberal convention at Ottawa. Mr. Crerar's prelections are well known for he has made but little effort to veil them. Moreover his interests clash with those of the Alberta Progressives who want a wheat pool. The war is on between him and Henry Wise Wood who is a greater force with western progressives than Crerar, Forke, or both. The success, even the existence, of the Progressive party is bound up in aloofness from the two old parties. There is a future for Crerar and Forke and perhaps Johnston in the Liberal party but no such future is assured for most of those whom they would lead into the Liberal camp.

### SHAMEFUL AND SHAMELESS

A sum of \$20,000 has been placed in the estimates to provide a free trip to Wembley for several members and senators and three newspaper men. The item is made large enough to provide an item which will allow each person to bring his wife along at the public expense. The conservatives with one exception voted against it. All the progressives, except a dozen or so voted for it; all the Liberals for it. It carried by 86 to 48. Mr. Forke after speaking in favor of it and stating that he had changed his mind half a dozen times during the debate, decided at last to vote against it because the conservatives as a party, would not assent to it. The scheme was concocted by the liberal and progressive whips, who, of course, will be selected as two of the joy riders and Premier King's argument in favor of it was that the whips do a lot of work without pay. The newspaper representatives were included to keep the press quiet if possible. As the party pledged to economy the progressives have abdicated. The country has heard all it wants to hear from them except of course the few who spoke and voted against the proposal. It is about as shameful and shameless a job as has ever been put across. Only with tongue in cheek can the government henceforth oppose the necessity of economy against any demand that may be made upon it.

### WHAT'S THE REASON?

When McAdoo's name was proposed at the Democratic convention in New York his partisans staged a demonstration which lasted an hour. They cheered, they sang, they grabbed standard and started a procession around Madison Square gardens. It was a mad, wild scene of deliberate, cold blooded frenzy. The partisans of McAdoo were not even "kidding" themselves and it is certain they were not kidding his opponents who were watching the scene and determining to stage a greater demonstration when their favorite was proposed. And they did. They kept it up for an hour and a quarter when Smith's name was proposed. Whom were they "kidding"? Certainly not themselves. Certainly not the McAdooites. They were making monkeys of themselves for the same reason as the partisans of McAdoo. But what that reason is we do not know. There must be some reason for it or grown-up intelligent men would not do it. What is the reason? Did they think they were kidding the free and enlightened citizens of the United States?

### WHEAT POOL RESULTS

The official statement issued by the board of directors of the Alberta Co-Operative Wheat Producers, Limited, at their meeting on July 5th, stating that the members of the pool will receive two and one-eighth cents more a bushel for their wheat than the average price received by Alberta farmers outside of the pool is a vindication of the successfulness of the co-operative methods of merchandising as adopted by the large institutions of the day. This showing in the first year's workings of the pool, undertaken in adverse circumstances and under hurried organization, can be looked upon only as a remarkable achievement and forecasts the great possibilities for the future under more perfect conditions and larger membership. Practically working as an individual it achieved success in its first year's operation—a result that was hardly to be expected and one which is seldom witnessed in the general run of business. With the similar pools of Saskatchewan, Manitoba and possibly others foreign to Canada, all working together in point of view and object, it is but to be expected that the real benefits are as yet to the forthcoming for those who are strong enough and determined to be masters of the products they create and not tools of the middlemen who have been favored with this business.

### NO SIGN OF "RUIN" HERE

As throwing another sidelight on the budget debate in regard to the claims of the Canadian textile manufacturers that their business was going to ruin because of the lack of protection it is interesting to note that during the past week the Dominion Textile Company, Limited of Montreal in its annual statement showed profits of \$1,065,934, practically the same as for the two preceding years and equivalent to six per cent of common stock having a book value of fifteen million dollars, although a very large proportion of it is water. Compared with recent reports of textile companies in the United States under a much higher tariff protection Canadian companies seem to be still doing remarkably well.

### CANADIANS REJECT CRITICISM

The Canadian delegates at the Empire Congress of Chambers of Commerce, now sitting in London, have placed themselves in opposition to the resolution stating: "This congress records with regret the decision of the British house of commons not to ratify the preferential trade resolution passed by the Imperial conference." H. B. McKenzie, president of the Montreal Board of Trade, in discussing the resolution, said that while Canada was most anxious to develop inter-imperial trade, Canadians did not wish to offer any criticism of decisions reached by the people and parliament of Great Britain regarding tariff questions affecting their own interests. The resolution was passed in spite of this opposition but the action of the Canadians has been very favorably received here.

### LIVE AS WE LIVE

Our good old friend, Sir George Foster, has been giving us wholesome advice again. He thinks we spend too much time golfing, too much time motor riding, too much time seeing motion picture shows. Perhaps we do. If so it is because we like those things. He on the other hand does not. He lives a life congenial to his tastes—studious, literary, virtuous. He loves making speeches and pursues his love unceasingly. He takes much enjoyment out of making speeches as other people do out of cinemas and golf and motoring. They are not asking him to forego his pleasures or to pursue them with moderation. Why then should he desire to stint the pleasures of others? But he is not alone. There are so many like him who would make all others live as they do. If they had there way we should all be too good for human nature's daily food. They would deprive us of our pet vices and standardize our pleasures and virtues. Thus would they retain their own enjoyments coupled with the extra pleasure of having taken away ours.

British courts have decided that steer roping is not rough, by dismissing the summons issued against the Rodeo promoters at the Wembley exhibition, who were charged with cruelty to animals.

### POOL RESULTS

Alberta Wheat Pool Averages for Last Season \$1.02—Official Statement

Members of the Alberta Wheat Pool will receive 2½ cents a bushel more for their wheat than the average price received by Alberta farmers outside the pool, according to the statement issued Monday morning by H. W. Wood, chairman of the board of trustees. The pool's average sale price is \$1.02 for No. 1 Northern, on a basis of Fort William, while the average price at Fort William for the same period was 99½ cents. From this price the administration expenses of the pool will have to be deducted, and this is another feature which will appeal to those farmers who have linked up with the pool. The total expenses for disposing of the farmers' wheat through the pool will be less than one-half cent. The pool handled nearly one-quarter of the wheat harvested in Alberta last year. The Alberta government report showed the harvest to be 167,000 bushels. The pool handled slightly more than 38,000,000 bushels.

The following is the official statement issued by the pool officials: The board of directors of the Alberta Co-operative Wheat Producers, Limited, at the close of their meeting on July 5, announced the result of the pool's operations up to June 30th, 1924. The result to the date showed an average sale price of \$1.02, basis in store Fort William for "One Northern" wheat, which compares with the average price at Fort William for the same period, of 99½ cents. From the above average price of \$1.02 the pool's office and administration expenses will be deducted. These total expenses, including Calgary, Winnipeg and foreign offices, also directors' fees and expenses, will total less than ½ cent per bushel for the season.

The average price of "one northern" wheat at Winnipeg is herewith listed according to monthly periods: October 97½, November 97½, December 93½, January 96½, February 99½, March 98½, April 98½, May 104½, June 113½. These same averages of prices, at which wheat outside of the pool was sold, show the following averages of Fort William prices for different periods: average price, 3 fall months 96½, average price 6 months 97 1-8, average price 8 months 98½, average price 9 months 99½. It will be noticed by this list of average prices that the price for the three fall months was 96½, and for the six months period 97½. Unquestionably the bulk of the farmers sold in that period. Unfortunately very few held through until May and June. The pool's average, therefore, compared with the 9 months' average is a fair showing. Another comparison that might be made is the pool's price compared with the average country elevator prices. The average under months for "one northern" wheat at 26c rate points in Alberta is as follows: October 73, November 70½, December 70½, January 76½, February 79½, March 77½, April 77½, May 82½, June 91½. Average price 3 fall months 71½, average price 6 months 74½, average price 9 months 77½. The pool's average price mentioned above, namely \$1.02, equals 83½ on car lots, clear of all freight and elevator charges at rate points in Alberta taking 26 cents per hundred pounds to Fort William. The total quantity of wheat handled by the Alberta pool was just over thirty eight million bushels. The board of directors will meet again shortly after July 15, when the exact amount of the final distribution will be decided. Cheques will then be immediately forwarded to the growers. The most of the final payment is expected to be in the mails by August 15.

### G G COOTE, M P

With Three Other Progressives Joined The Ginger Group

The following explanatory letter from the four new members of the "ginger group" was received by Mr. Forke on July 4: "As our names have been associated in recent newspaper despatches with those of the seceding members of the Progressive group, and as there has been a demand that we should define our position, we here-with make the following brief statement: In the first place we should like to say that we are in large measure in agreement with the statement of principles and viewpoint issued by the seceding members. In the second place as regards the work of parliament, we have been for a long time in active and regular collaboration with most of the seceders and believe it our duty to continue that collaboration. For the remainder of the session, therefore, we think it better to discontinue our attendance at the Progressive caucus, we believe further that a proper reorganization of the group would result in increased harmony and efficiency, and might bring about reunion. We sincerely hope that such a desirable reorganization may take place before the work of another session begins."

Figures issued by the Dominion bureau of statistics show that one half of the rail freight traffic originating in British Columbia is made up of forest products. Last year the railways carried well over 2,000,000 tons of lumber, shingles and other wood products out of British Columbia.

### ITEMS OF INTEREST

A silver nugget weighing two and one half tons, from Northern Ontario, the largest ever taken from a silver mine, is proving a magnet to thousands of visitors to the Canadian pavilion at the British Empire exhibition.

The Vancouver Board of Harbor Commissioners has asked for competitive plans for construction of another one million bushels annex to number one elevator. This will give the plant a storage capacity of three million bushels.

Investigations of the oil possibilities of the Wainwright-Irma oil area, and the making of a geographical map of the field will be conducted this summer by Dr. George S. Hume of the Geological Survey, Department of Mines. Considerable drilling will be done in this year during the summer.

A Scottish farmer being elected to the school board, visited the village school and tested the intelligence of the class by the question: "Now, boys, can any of you tell me what naething is?" After a moment's silence a small boy in a back seat rose. "It's what ye g'd me the other day for holding yer horse."—Everybody's Magazine.

According to figures prepared by the Canadian Pacific Railway the export grain movement via Vancouver had reached a total of 48,971,930 bushels on May 31, 1923. Of the 1924 total, 34,545,950 bushels were shipped to the United Kingdom, 13,830,325 bushels to the Orient, as well as 495,115 bushels to South America and 100,540 bushels to New Zealand.

The great interest evinced by American and other anglers in fishing in Canadian waters, has led the Canadian Pacific railway to offer three prizes for anglers on French river, Nipigon river and Lake of the Woods. These three trophies have been set up for competition at various bungalow camps conducted under the direction of the Canadian Pacific. The trophies are replicas of the bass and the trout, and a wonderful reproduction of the head of a fighting muscalonge.

The popularity of the summer trip to the northern territories, and the Arctic was evidenced by the large passenger list on the A.G.W. train going north on Tuesday last to connect with the steamers for the Arctic. The passengers included not only Mounted Police parties for northern posts, Judge Dubuc and his official party for the holding of court at Akavik, but also included tourists among whom was Dr. Roland Hammond of Providence, Rhode Island, who is spending his summer vacation in the northland.

The 1924 crop from between 10,000,000 and 11,000,000 acres of western lands will be sold through co-operative pools. The Alberta pool has been operating since last year and already has a large acreage signed up, while the Manitoba and Saskatchewan pools are now engaged in signing up acreage, and it is anticipated that the latter two pools will handle the grain grown on some 8,000,000 acres. Plans are now afoot to merge the three pools into one central selling organization, and it is possible that such a merger will be effected in time to market the 1924 crop.

Alberta's total mineral production during 1923 was valued at \$31,616,816, according to a preliminary statement issued by the Dominion Bureau of Statistics. This includes the following: Coal, 6,848,538 tons valued at \$28,278,842; Natural gas, 6,135,260 thousand cubic feet valued at \$1,700,000; Petroleum, 4,526 barrels valued at \$30,902; Clay products, valued at \$612,242; Cement, 318,756 barrels valued at \$740,940; Quicklime, 96,905 barrels valued at \$37,653; Lime hydrated, 33 tons valued at \$346; Sand and gravel, 1,341,189 tons valued at \$231,497; Stone, 11,200 tons valued at \$14,393.

So interested have Japanese livestock dealers become in the shipment of beef cattle recently made by the Alberta government to Japan in charge of H. A. Craig, deputy minister of agriculture, that butchers from all over Japan have come to view the stock, according to word received recently from Mr. Craig, by Hon. R. G. Reid, acting minister of agriculture. Mr. Craig writing from Tokyo, says that the stock made the trip across the Pacific in excellent shape, and further states "The Japanese are well pleased with the cattle and are particularly well satisfied with the beef. They are anxious to have another shipment as soon as possible. The trade is possible of development but depends, I believe, upon reduction in freight and expenses all through." In connection with freight charges, Mr. Craig states that he has arranged to meet the representatives of the shipping board in Vancouver to discuss the matter on his return from Japan. Mr. Craig was surprised to learn that the Japanese themselves are producing a very fine quality of beef. The two horses also taken over with the shipment, have been sold by Mr. Craig, but he states that there is no demand for horses of any description. There is demand, he states, for timothy seed, barley for brewing, wool and hides, wool commanding a price at the farm of 1 yen 80 sen, about 90 cents in Canadian money. Timothy seed is worth about 17 cents a pound. Mr. Craig has established some valuable connections which he may later prove to be of advantage in establishing a market for Alberta products.

## The simple, sure way to keep that schoolgirl complexion

Youthful complexions are becoming the rule—even in middle life and later years. For millions now follow a simple rule—a method you, too, may easily employ.

### Do this at night

Cleanse the skin regularly, authorities say, to keep your complexion lovely, radiant, youthful. But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny

pores. Rinse—and repeat the washing. Then rinse again. Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

### The simple, correct way

You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare

palm and olive oils—famous for mild, but thorough, cleansing qualities since the days of Cleopatra. And it is inexpensive. All dealers carry Palmolive Soap. Try it for just one week. See how it does improve your skin. Note well the name and wrapper. Palmolive is never sold unwrapped. Costs so little that you may enjoy it for the bath also.

Made in Canada

Volume and efficiency produce 25c quality for

10c

THE PALMOLIVE COMPANY OF CANADA, LIMITED

Winnipeg Toronto Montreal

Palm and olive oils—nothing else—give Nature's green color to Palmolive Soap.

### ITEMS OF INTEREST

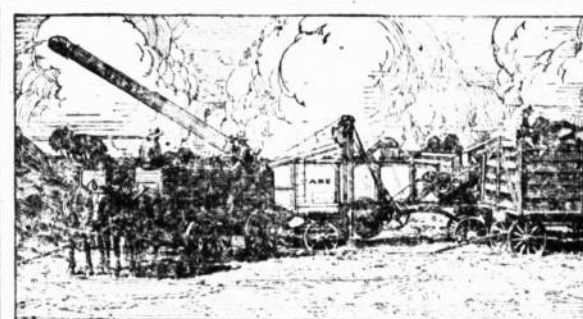

The gasoline and sailing schooner Herman has arrived at Nome, Alaska, in distress and plans for the rescue of the party on Wrangel island are in abeyance. The Herman left Nome June 11, to take off from the island the colony, which consisted of 33 persons, and was left there in August by Harold Noice. The schooner got as far as the Diomedes Islands in the middle of Bering Strait and broke her crankshaft. She returned to Nome under sail.

Canadian exports to the United States for the twelve months ending with April, 1924, show an increase of something more than 48 millions of dollars over the corresponding period of 1922-23, and an example of the rapid growth in the demands of the United States upon the forest resources of the dominion is furnished by the fact that of this 48 million increase, 31 millions comes from wood and paper exports. Next to wood and paper exports, animal products is of greatest importance in Canada's exports to the United States, with agricultural and vegetable products third.

Railway companies operating in Alberta have shipped a total of 152,615,776 bushels of wheat between September 1 of last year and May 31 of this year, being the 1923-24 crop shipping season. In addition to this the railways report a total of 11,196,899 bushels of wheat in store in line elevators. This makes a total marketed of 163,812,675 bushels of wheat, but from this must be deducted about 20,000,000 bushels to allow for the quantity received from points in Saskatchewan which are included in Alberta division of the C.P.R. and to allow also for duplication in handling of grain coming off branch lines to main transcontinental lines.

With the exception of British Columbia, Alberta has a higher average number of poultry per farm than other provinces in Canada, according to figures prepared. Canada's average number per farm as a whole is 6.9, but Alberta's average number is 7.9. British Columbia's average number is 98.6. The comparative figures are as follows: Prince Edward Island, 69.4; Nova Scotia, 17.9; New Brunswick, 28.4; Quebec, 49.7; Ontario, 75.1; Manitoba, 61.7; Saskatchewan, 76.2; Alberta, 79.4; British Columbia, 98.6. Alberta's number of milch cows per farm is 4.5, compared with 5.1 for all Canada. Alberta's number per farm is higher than the other provinces of the west, and is exceeded only by Quebec and Ontario.

The greatest co-operation is being offered by municipal districts all over the province, with the provincial department of agriculture officials engaged in the campaign against weeds, states W. J. Stephen, field crops commissioner. Never before has there been such co-operation among all concerned in this work. There is not a municipal council in the province which has refused to co-operate in the work, and many of them have already appointed weed inspectors. In some cases the councillors themselves are acting as inspectors. Through the efforts of the government officials and councillors of municipalities, individual farmers are undertaking experiments in weed control, so that at the end of the season it will be possible to form definite conclusions as to the best methods of handling the weeds of the province.

### Low Prices on Case Threshers

A light-running, easily-adjusted, clean-threshing, grain-saving Case Thresher is one of the surest profit-makers a grain grower can buy. Cash prices for complete machine are attractively low. Only a little more if time payments.

It will pay every tractor owner growing grain and others to see us at once.

### REID HILL NEWS

Quite a number of the folks around here are either going or gone to Calgary for the stampede.

We regret to say that Mrs. Wright, the wife of the genial president of the U.F.A. local here has been taken to Holy Cross hospital, Calgary.

Mrs. Stewart Sr. is paying a visit to her son, Mr. Gordon Stewart, and his recently acquired son, Mrs. Gordon Stewart is being visited by her mother, Mrs. Tuttle, so both grandmothers are present on the job.

The ladies' aid of the church put on a very successful ice cream social last week in the grounds of the church. The mosquitoes finally got the best of it and the party adjourned to the building where a short programme of very finely rendered items were greatly appreciated by the crowded assembly.

Mr. Kerr, who suffered such a severe accident this spring is now out of hospital and is going around on crutches for the time being. Mr. Thomson, brother-in-law of Mr. Cecil Smith, is staying with him and expects to take in the harvest season with him.

### DAVIS NOMINATED

John W. Davis of West Virginia, and former United States ambassador to Great Britain, was nominated by the democratic party in convention in New York City after the 103rd ballot had been polled and after a deadlock of over two weeks. Charles W. Bryan, of Nebraska, brother of William Jennings Bryan, was nominated for the vice-presidency without much opposition. This undoubtedly was to unite the party in a vigorous campaign for the election. W. J. Bryan was in opposition to the nomination of Davis, and he and McAdoo openly opposed the nomination. With his brother on the ticket, W. J. will throw his influence actively into the campaign. Mr. Bryan is a westerner and fully cognizant of the needs of the agricultural interests of the country and should meet the demands of the western population.

The British fleet sailed from Vancouver to San Francisco where they arrived on July 8th. It is the first large British squadron to enter an American port in forty years.

### CROP REPORT

The past week has been one of high temperatures and sunshine throughout the west, according to the weekly crop report issued today by the agricultural department, Canadian Pacific Railway. The report states that the growth of all crops is very rapid and everything except late sown wheat is in the shot blade and some of the earliest is showing signs of coming into head. The extreme heat has been trying to the crops, but excellent root system has developed during prolonged cool spring, which has enabled grain to stand up well. Large sections of Saskatchewan and Alberta, particularly in the latter province, has experienced good rains during the week. Apart from these areas and more especially in Manitoba rain is needed in some sections. Cattle are thriving in the prairie provinces, the report says and are not troubled so far this season with flies and other insect pests. Live stock receipts and prices at stock yards continue about the same as last year. Demand for farm help is at minimum, with sufficient applications to meet requirements. In Manitoba the crop outlook is decided good, but grains have reached stage when given rain and good growing weather a fine crop will result. Summer fallow particularly are looking fine but fall and spring plowing generally speaking need rain. All crops in this province are later than last year and will have to show unusual development in order to be ready for the harvest at as early a date. Crops in Saskatchewan although in a healthy condition are late. A great improvement is shown however, as the result of better growing conditions. West central and north western areas have experienced some precipitation during week but more is required. Some of early sown wheat is coming into head and is from twenty four to thirty inches in height. Forest tent caterpillars are doing heavy damage to trees in the south eastern portion of the province, the report states. Crop conditions continue favorable in Alberta and were further benefited by showers over large sections of the province during the seven days and nearly every district is getting sufficient rain to make good crops. The north eastern section of the province is still in need of rain though not urgently, also the

district from Red Deer to Edmonton. All wheat is in shot blade and considerable of the early coming into head. Oats and barley are in the same condition as wheat. Cutting of alfalfa has commenced in number districts and the crop is very satisfactory. A great deal of new breaking and summerfallowing is reported. Weather conditions dry and hot in the Edmonton, Dunvegan and B.C. district. Crops at most points are suffering from lack of moisture. Wheat in the Westlock district is heading out and is only nine or ten inches high. Rain is needed at all points. Rain is required in many districts in British Columbia. Fruit trees however, are healthy and vigorous and may possibly make up in size for shrinkage in numbers. Cherry picking is well ahead, the crop is inclined to be light but the quality is good. Strawberries have passed the peak, crop being good and prices fair. Raspberries are now moving in full volume looking well and should be a full crop.

### ITEMS OF INTEREST

One of the most disastrous fires in its history occurred in Ponoka on July 9th.

New York is the city of opportunities. A man who went there broke now owes \$203,005.—Memphis Press

The Socialist party of the U.S. will join the LaFollette forces in his independent campaign for the presidency.

Drumheller was visited with a hailstorm last Friday morning when hail as large as hens eggs came down for a short time. No material damage was reported to crops however.

Calvin Coolidge, younger son of President and Mrs. Coolidge, died at the White House, Washington, on Monday night from infection developed from a broken blister on his heel.

Exports from Canada fell short by some \$11,000,000 of imports last month, according to figures issued by the Dominion bureau of statistics. The figures are:—imports, April, 1924, \$60,203,141; exports of Canadian goods, \$48,880,914, and of foreign goods, \$637,550. Comparative figures show that imports dropped some \$8,000,000, compared with April, 1923, and exports increased by about \$5,000,000.

April immigration returns indicate that the tide of immigration has now set strongly again towards Canada. The number of arrivals was 19,330, an increase of 103 per cent. over that for the same month last year. In the case of arrivals from the British Isles, the increase was 100 per cent. From the British Isles there came 9,410 people; from the United States, 1,838; and from other countries, 8,082.

Twenty-five hundred sea lions have been killed by the Dominion government patrol boat "Givency" during the last two weeks, off Vancouver Island. The sea lions prey upon the salmon and other edible fish, and also destroy large numbers of them. The boat worked along the productive salmon areas in the vicinity of the Virgin Rocks with great success. Machine guns and rifles were used in killing the sea lions.

A unique convention of the Girl's Clubs of the Women's Institutes of the province was held at Jasper Park the past week. This is the first "park" convention held by the clubs.

It has been announced by H.R.H. the Prince of Wales that he will again visit his ranch in Alberta this fall.

"I see in the paper that a widower with nine children out in Nebraska has married a widow with seven children." "That was no marriage. That was a merger."—Washington Post.

Alderman Tiptaft of Birmingham England, was a visitor to the Province the past week, during a ten week's tour he is making of Canada. He was greatly impressed with the opportunities accorded in Alberta for settlement by old country people.

A shipment of some 1,200 boxes of Alberta butter will be made shortly to the British market by way of Vancouver and the Panama. The shipment is being centralized in Calgary, and will be made from there. Last year a considerable quantity of Alberta butter went to Britain by this route, and reached the ultimate market in a most satisfactory condition.

The fiftieth anniversary of the arrival of the Northwest Mounted Police in Western Canada, co-incident with the establishment of Fort Macleod, was celebrated at Macleod the past week with immense success. Approximately 25,000 visitors from all parts of Canada and from the States visited the little Alberta town and participated in the event.

Nearly 9,000 Canadians have returned to Canada from the U.S.A. since April, according to figures prepared by the Department of Immigration at Ottawa. In April last the department instituted a system of checking at the international border on all Canadians who were returning after a period of six months or more spent in the States. The result today has been the number above quoted.

Provincial bonds to the extent of \$750,000, being the new highways sinking fund issue, were disposed of by the Province during the past week at the satisfactory price of 97.688, giving a yield of 5.22. The successful bidders were a syndicate composed of the Dominion Securities corporation; Wood, Gundy & Company, and A. E. Ames & Co. In view of the fact that Manitoba recently sold a Canadian payment issue for 96.43 with a yield of 5.29, and an American payment issue at 97.07 yielding 5.24, the Alberta sale is considered to be most satisfactory.

Net sales of provincial savings certificates for the first five months of 1924 total the very satisfactory sum of \$1,259,775.78, which is a much larger net sale than has ever been recorded. The purchase of savings certificates to this extent for the first half of 1924 will greatly assist the provincial treasury in financing provincial expenditures, and it is also some indication of improved conditions in the province.

The gross sales of certificates for the first five months of this year totalled \$2,555,170.99, and the withdrawals totalled \$2,274,279.14, leaving the net sales as stated.

### LOCAL ITEMS

Miss Adelaide Cook, teacher, has left Vulcan for Edmonton, where she will attend summer school.

Mr. T. C. Robson, who carries an ad. in The Advocate as a plasterer and mason, has moved into town and with his family resides opposite the Terwilliger elevator.

Mrs. Mitchell and two young daughters of Calgary, were in Vulcan a day or two this week. Mrs. Mitchell has property interests in town which were receiving her attention.

The Advocate has received the information that Mr. L. J. Smith has completed his new coal mine four and a half miles east of Champion. The coal is of superior quality and there is an immense quantity.

Mrs. D. A. Carter and family and Mrs. George Waugh, all of Hanna, were visitors last week in Vulcan, guests of Mr. and Mrs. Hec. Marcellus.

Mrs. J. M. Hill has gone to Billings, Wash., to visit with a sister, and a little son went along.

A picture post card from Mr. Guy Denbigh, mailed from Seattle, conveys the intimation that they are letting the Americans look them over, and are having a good time. The weather down there is fine, and they are enjoying lots of fresh fruit.

Mr. George Terborgh, teacher on the staff of the University of Illinois, Chicago, is a visitor in Vulcan. Mr. Terborgh resided with his parents some years ago in the Loma district, and since that time has been a resident in the States. Some days ago he bought a round trip ticket from Chicago to Spokane, and when he reached Shelby decided to make a trip up into the old district in Alberta. He is a hiker of some experience and concluded to walk and chance a ride on this side trip. The distance from Shelby to Vulcan is 185 miles, and this he made in 29 hours, being required to walk only 25 miles, and 17 of these were on the road near Barons. Hiking has many interesting experiences, and even this short trip furnishes material for some real tales.

The bringing of immigrants to Canada, particularly Danes and Norwegians, is one of the main objects of the trip to Europe of President Beatty of the Canadian Pacific Railway, who sailed on the steamship Mount Laurier recently, he stated. The Danes and Norwegians he described as "courageous workers who would be great assets to Canada."
